

About the

# Neighbourhood Project

# The facts:

- The City Board founded the Neighbourhood Project in 1996
- The Neighbourhood Project is subordinate to the City Board and reports annually to the City Board.
- Project is a collaborative project between the departments of the City, which works in the suburban areas
- The steering group of the Neighbourhood Project has 17 members from 12 departments. The Chairman for the 2016–2017 period is Rikhard Manninen, Head of the Strategic Planning Division at the City Planning Department.
- Broad and long-term work is undertaken to prevent inequality and poor image in the suburban areas.

# Objectives and operations of the operational period

# Meri-Rastila regeneration

## Regeneration Areas Project - Neighbourhood Project

*Regeneration areas project,  
City planning department*  
Densification of the neighbourhood  
Areal Plan

- Larger variety of different housing typologies and sizes of flats
- Diversification of the ownership of housing, nowadays relatively too much social housing in the area
- Densification of the existing plots  
>funding for renovation of the old buildings

*Neighbourhood Project*  
Improvement of parks and  
other public spaces  
In co-operation with  
landscape architects

- parks
- squares
- paths
- streets
- playgrounds
- Sport facilities

*Real estate department*  
Survey of public services and public  
real estate

- Survey of schools, kindergartens and other public services and condition of the buildings
- Comprehensive way of planning the services and the urban structure

# Art – community - placemaking

## Neighbourhood Project

Spring, summer, autumn 2016

- Pop-up project which combines art and placemaking, brings together the residents and planners of the whole project and empowers the community of the neighbourhood
- First physical footprint giving an image of the large scale changes that are about to come

First footsteps towards the future of Meri-Rastila

# The most important target areas and central projects for the operational period
